PROFILE

3D artist, interactive designer, trainer and creative entrepreneur. As founder of **Ghost Pixel Studio**, I build real-time experiences, artist-facing tools and hybrid pipelines combining 3D, Unreal Engine and generative AI. My approach brings together art direction, rapid prototyping, teaching and production.

HIGHLIGHTS

01 Software product released on Steam: VoxelForge

02 Training organizations: Optima Academy & CIFAP

2x Major events: Paris Games Week & Japan Expo

CORE SKILLS

3D & real-time

Modeling, sculpting, PBR, shaders, lighting, optimization.

Unreal Engine 5

Blueprints, gameplay, level design, UI and Niagara.

Generative AI

ComfyUI, LoRA, img2img, upscaling, multiview, video.

Teaching

Curriculum design, demonstrations and hands-on guidance.

TOOLBOX

Unreal Engine 5 Maya 3ds Max
ZBrush Substance Painter Photoshop
ComfyUI Python ChatGPT

PROFESSIONAL EXPERIENCE

Trainer in AI-powered visual creation · Optima Academy

2026 — present

PROFESSIONAL TRAINING

- Design and delivery of training sessions focused on AI-assisted visual creation.
- Hands-on guidance for learners mastering visual production methods and creative AI tools.

Founder / 3D Artist & Interactive Designer · Ghost Pixel Studio

2025 — present

PARIS · INDEPENDENT STUDIO

- Direction of 3D and interactive projects: UE5 prototypes, art direction, gameplay and animated content.
- ComfyUI pipelines for illustration, animation, visual R&D and artist-facing creative tools.

Generative AI & ComfyUI Instructor · CIFAP

2026

PARIS · PROFESSIONAL TRAINING

- Designed and delivered professional training on production-focused ComfyUI workflows.
- LoRA, image-to-image, upscaling, multiview, animation and character replacement for video.

Co-founder / 3D Artist & Game Designer · Owl Castle Games

2016 — 2020

PARIS · INDEPENDENT GAMES

- Art direction, 3D production and gameplay integration for Ymenok Reborn.
- Showcased at Paris Games Week and Japan Expo; prototyping, FX, animation, UI and level design.

Additional experience

2009 — 2018

NATURE & DÉCOUVERTES · DISNEYLAND PARIS

- Customer service, product guidance, guest relations and onboarding in demanding environments.

PRODUCTION APPROACH

01 · Frame

Intent, references, constraints and target outcome.

02 · Prototype

Fast, testable visual or interactive proof of concept.

03 · Produce

Assets, pipeline, integration and optimization.

04 · Transfer

Documentation, training and team autonomy.

Projects & capabilities

Creative products · real-time experiences · knowledge sharing

SELECTED WORK · 2026

FLAGSHIP PRODUCT · CREATOR & DEVELOPER

VoxelForge

Voxel production software that converts textured 3D meshes and animated FBX/GLB models into voxel assets. Product design, UX, visual identity, documentation and Steam release management.

Released August 2026

VOX · GLB · FBX · OBJ

Experimental image-to-3D

[VIEW VOXELFORGE ON STEAM](#)

SELECTED PROJECTS

Cassette
Battle in Vaisseau – Nacelle

UE5 game in development · characters, art direction, level design and TPS gameplay adaptation.

Réalisation d'un diorama enneigé

Snow diorama

3D environment · composition, materials, snow, lighting and visual storytelling.

Ymenok Reborn
Unreal Engine FPS

Unreal Engine FPS · art direction, 3D, gameplay, FX, UI and exhibition demos.

WHAT I BRING

Visual direction

Cohesive worlds, composition, lighting, environmental storytelling and identity.

3D production

Modeling, sculpting, texturing, retopology, optimization and real-time integration.

Interactive design

Gameplay prototyping, Blueprints, UI, game feel, FX and level design in UE5.

AI / 3D pipelines

Repeatable ComfyUI workflows, R&D, creative automation and professional training.

- Level art, lighting & Unreal integration
- Real-time asset optimization

- Game and creative-tool prototyping
- Visual AI & ComfyUI training

Parallel explorations: Solo UE5 project — exploration and emergent systems · Relic Rumble — run & gun.

EDUCATION

3D Design long course · e-tribart

Audiovisual BTS · editing / post-production

Foundation years · LISAA

STI Baccalauréat · Applied Arts

Self-directed learning · games, 3D, generative AI & storytelling

LANGUAGES

French · native

English · professional

Open to collaboration

Freelance projects, training, 3D production, Unreal Engine work and studio opportunities — on site in Paris or remotely.

ILLUSTRATION · AI · 3D

Pandamour

Illustrated children's book series: red panda character design and a hybrid pipeline from sketch to rough 3D and stylized final rendering.
